COVID-19 SOLUTIONS

POWERFUL DISINFECTING & SANITIZING SOLUTIONS

Disinfecting, sanitizing and cleaning have never been more important than they are in today's environment.

Although always necessary, Covid-19 has made it even more important that we disinfect high touch point surfaces, wash our hands regularly and use hand sanitizer in-between washings or where washing is not an option.

As we navigate through these uncertain times what is evident is that these practices will continue far into the future so we may continue to manage this pandemic and future challenges.

Your trusted Lawrason's Distributor offers a wide range of DIN registered disinfectants, hand sanitizers that are NPN approved for both home, office, healthcare and industrial applications and are recommended by Health Canada to be effective against the Coronavirus
